BOTANICAL

Discover how essential oils can transform the way you manage your health. These natural chemical compounds are life changing.

YOUR BODY WILL THANK YOU.

FITNESS

Yes, we all have different bodies, issues, and physical needs, but a healthy lifestyle can often help any person feel better—especially when consistent exercise and healthy eating is employed.

NOURISH

Give your body what it needs and it will thrive. This starts with great nutrition, green whole-foods are an ideal companion with a blend of pure essential oils.

BOTANICAL

Oil secrets

Natural Botanical Supplements

Pure essential oils can help with things like relaxation and sleep, beautifying the skin and hair, creating a soothing massage, repelling insects naturally, cleansing surfaces around the home—and so on. Because cooking, eating, and drinking are such a part of our everyday lives, it is no surprise that essential oils are also useful in the kitchen.

With so many options for spices, seasonings, and extracts on the market that can help enhance our food, you might be wondering, “Why should I cook with essential oils?” While cooking methods often depend on diet and personal preferences, there are several benefits to using essential oils in cooking. As wellness is the foundation of healthy weight management, energy balance and healing the body on a cellular level.

Enjoy the easy access to plant-based supplements with a wide range of wellness products. We start our healthy living journey from the inside, so it makes sense to provide the body with essential nutrients.

With global impacts on food production today, our fresh produce and protein sources lack key essential nutrients. Quality nutrition is obtainable through additional supplements!

dōTERRA LIFELONG VITALITY PACK®

Maximize your daily nutrient intake with dōTERRA Lifelong Vitality Pack®, a trio of power-packed supplements to fuel and support your body. Food is energy that impacts our mindset (intellect) and emotional patterns that shape our bodies. Crucial whole-foods, micronutrients, and cellular support.* are found in the Lifelong Vitality Pack; the botanical supplements are an essential daily ritual for health and wellness.

FITNESS

Oil Secrets

Over Training signs

Flu-like symptoms
Lack of motivation
Weight (fat) gain

Under Training Signs

Weak and sore muscles
Tiredness
Weight (fat) gain

Many people are over or under training for their goals and lose motivation in training. Finding the balance creates energy, boosts your mood, clears the mind and reducing stress on the mind and body.

Selecting a workout is personal. It must be achievable, within your prices range and suit any kinds of weather conditions. When you choose a workout you enjoy you're more likely to stick with it long-term!

fat burning or fitness

Working-out in the fat-burning zone!

- Target heart rate is around 130-150 BPM
- Interval training
- Cross-training
- Increasing intensity weekly
- Include compound and stability exercises
- Renew your program every 8-12 weeks

Training myths

- Weight training will make me bulky

Truth: Genetic factors and training styles shape muscle tone.

- Skipping a session or even a week will result in muscle loss.

Truth: Recovery is essential to build lean muscle mass and prevent injury.

- Stretching will decrease muscle.

Truth: Increased flexibility can improve workout performance and reduce injury.

- Train before a meal, try eating an hour prior.

Truth: Training without food may decrease strength gains.
